SUMMARY

Experienced Senior Software Engineer with over 6 years in full-stack development and a strong background in system architecture and integration. Proficient in .NET technology, Node.js, React Native, React, and Angular, with extensive experience in SQL Server management. Proven ability to lead the development of cutting-edge applications and ensure high-quality code standards.

EDUCATION

M.Sc in Computer Science

Superior University, Lahore
2014 - 2017

BS in Computer Science

IUB University, Bahawalpur
2011 - 2014

CAREER SUMMARY

► Senior Software Engineer

JAZZCASH - March 2022 - Continue - Islamabad, PK,

PROJECT: **JAZZCASH**

- Worked as Technical Architect for building powerful services that power Fintech developed in React-Native.
- Built entire backend powered with Microservices using .Net Core, Node.js, REST, API Gateway.
- Developed and architected the equipment logistics control system for employees using Angular/React.
- Built Real-Time Notification Engine using Kafka Microservice that powers customer reminder notifications for repayments and eligibility for a new loan product.

Day-to-day activities include:-

- Schema model design.
- Writing NoSQL queries using mongoose as ORM.
- Integrating CPS API (Huawei Wallet Management system) and third-party API.
- Caching of data in Redis had a data grid.
- Consuming Kafka topics and generating reports in DB2.
- At a time we are handling multiple projects and collaborating with team members to ensure the delivery of assigned tasks.
- Making of response code objects.
- Troubleshooting / debugging issues (checking logs on Azure and KIBANA) - Deployment of code on staging by using Jenkin.

► Senior Software Engineer

Reactive Space - January 2022 - March 2022 - Bahria Town, Islamabad, PK

- Create a decentralised cryptocurrency exchange (dEx) powered by Ethereum smart contracts. Designed frontend in ReactJs/Angular for exchange.
- Wrote smart contracts for depositing/Withdrawing and placing orders for Aimesis Tokens.
- .Net Core/React-Native Integration with Web3 and Blockchain.
- Experienced with distributed Microsoft Azure cloud platform configuration, deployments, and lifecycle management automation tools like Jenkins or Github.

► **Senior Software Engineer**

TECFOLK - January 2017 - December 2021 - Bahria Town, Islamabad, PK

- Develop software that takes in API files and interacts with databases using React/.NETCORE/MYSQL.
- Also developed Mobile App with React Native/Redux and RocketChat Framework technology.
- Development using Visual Studio, Dot Net, C#, MS SQL, DB queries, API integration, SFTP file transfer using C#, Windows service creation and XML/JSON/CSV file creation for data transfers and processing.
- Development of inventory control system and point of sale. The system has an administrative area in Angular and POS in Angular and app developed in ReactNative.

PROFESSIONAL SKILLS

Coding Languages

Node.js, TypeScript, JavaScript, .NET Core, React.js, React Native

Frameworks/Systems

Angular, React/ReactNative, .NetCore, Node.js, IBM App Connect, Microsoft Azure/ API Connect, Redhat, Kubernetes, Docker, Linux, Ace Cloud, AWS, Git, OpenShift

Databases

SQL Server, MySQL, DB2, MongoDB

Machine Learning

Power BI, Qlick Sense

HOBBIES

cycling - jogging - hiking - pingpong - travelling
